Coronavirus disease (COVID-19) Pandemic

Coronavirus disease (COVID-19) is an infectious disease caused by a new virus.

The disease causes respiratory illness (like the flu) with symptoms such as a cough, fever, and in more severe cases, difficulty breathing. You can protect yourself by washing your hands frequently, avoiding touching your face, and avoiding close contact $(1 \, \text{meter or 3 feet})$ with people who are unwell.

Affected Countries	Tests	Confirmed	Active	Recovered	Deaths
